

Daniel Baer AICP is a Senior Vice President and National Director of Major Project Development for WSP. With 35 years of consulting and project management experience, Dan has worked on some of the largest and most complex transportation and land development initiatives throughout the country. He is presently managing the development of alternatives to replace the busiest bus terminal in the world, located in New York City. He also managed the development of the master plan and design guidelines for the construction of over 15 million square feet of mixed-use development over an active rail yard (Hudson Yards) on the west side of Manhattan, NY., WSP's involvement in the Sunnyside Yard Overbuild feasibility study, and the overbuild of 22 million square feet of development over an active METRA yard in Chicago, Ill. He is presently managing the preparation of four integrated master plans related to the expansion of the Kay Bailey Hutchinson Convention Center and the development of a new multi-modal transportation center in Dallas, Tx. Mr. Baer is a graduate of Pomona College, and NYU for his Master's and Doctoral studies, and is the former Mayor of the Township of Millburn, NJ.
